## JUMP START

ESU Concurrent Credit Program: Spring 2017

Any high school junior or senior student in Kansas can get a “Jump Start” on their general education college course work through supported online, on campus or dual credit instruction with Emporia State University. Jump Start courses are offered at the discounted tuition rate of \$100 per credit hour! With this program, high school students can gain up to 9 credits of college coursework during the fall and spring semesters.

To participate in the program:

1. Complete the **Jump Start Enrollment Form** indicating the course(s) you want to take in the upcoming semester
2. Watch for email notification of your Buzz-In login to access student account information
3. Pay the total tuition amount before 5:00 p.m. on the tenth class day of the semester, **Friday 1/31/17**.
4. Work hard and enjoy the ESU academic experience!

| <b>HI 112 U.S. History Since 1877</b>                       | 3            | \$717.00       | \$417.00 | \$300.00                |
| <b>AR 105 Art Appreciation</b>                              | 2            | \$492.00       | \$292.00 | \$200.00                |
| <b>UL 100 Research Skills, Information &amp; Technology</b> | 2            | \$492.00       | \$292.00 | \$200.00                |
| <b>BU 241 Personal Finance</b>                              | 3            | \$717.00       | \$417.00 | \$300.00                |
| Dual Credit Courses - EHS                                   |              | Tuition        | Discount | JS Rate                 |
| <b>Spring: IS 113 Intro to Microcomputer App</b>            | 3            | \$675.00       | \$375.00 | \$300.00                |
| <b>Fall/Spring: BU 241 Personal Finance</b>                 | 3            | \$675.00       | \$375.00 | \$300.00                |

Classes listed above are general education courses for Emporia State University. These credits are transferrable to other institutions, however, students should verify with their university of interest how the credit transfers. Descriptions of the online and dual credit course offerings are on the back of this flyer. Juniors and seniors are also invited to take any on-campus courses at ESU as their schedule allows and high school administration approves. Total tuition due is determined by the number of credits the student is enrolled.

# Spring 2017 Online & Dual Credit General Education Offerings

**EG 101 Composition I - 3 Credit Hrs** - This course emphasizes fundamental principles of written English and rhetorical modes available to the writer. Students will write essays based on their reading and experiences in the context of issues pertinent to their immediate situation. (Prerequisite: Minimum ACT English score 16) – **Fall/Spring**

**EG 102 Composition II - 3 Credit Hrs** - This course is a continuation and development of EG 101. The thematic orientation of the course permits the student both a broad study of writing problems and practical experiences with an in-depth study of a particular area of his or her own interests. (Prerequisite: EG 101 or credit for EG 101 by examination)- **Fall/Spring**

**HL 150 Critical Health Issues and Decisions in Society - 3 Credit Hrs** – This course examines underlying health and wellness issues and recommendations, and the theory and practice of implementing health enhancement strategies. In addition, the relationship between health and larger cultural and societal issues is analyzed. – **Fall/Spring**

**MU 226 Music Appreciation - 2 Credit Hrs** - This course is designed to create musical interest, enhance aesthetic enjoyment on the part of the listener, and show the relevance music plays in our everyday lives. Students with both musical and non-musical backgrounds are invited to enroll. Required attendance at live musical events is a course component. – **Fall/Spring**

**PE 100 Active Living - 1 Credit Hr (8 Week Block)** - This course encourages personal awareness and responsibility for maintenance of health and physical well-being through physical activity. Through lab experiences, students will expand their knowledge base of health and wellness. Self-assessment and personal program development utilized. – **Fall/Spring**

**HI 111 U.S. History to 1877 - 3 Credit Hrs** – This course, designed as a general education course, is survey of early American history from the colonial period through the American Civil War and Reconstruction periods. – **Fall**

**HI 112 U.S. History since 1877- 3 Credit Hrs** - This course is an exploration and survey of U.S. History since the period of Reconstruction. Through exploration of this period, students will enhance their understanding of many significant events that have shaped the United States of America. – **Spring**

**PY 100 Introduction to Psychology - 3 Credit Hrs** - This course covers major areas in psychology (e.g., learning, perception, personality, behavioral disorders) which provides a basis for advanced work in understanding human behavior. Students utilize the science, research, theory, and application across a broad spectrum of content areas. – **Fall/Spring**

**AR 105 Art Appreciation – 2 Credit Hrs** – This course observes the purpose and manner in which art is created. The class covers the production of art through a variety of mediums, discusses the visual principles involved in viewing artistic works, while examining the aesthetics of art. Highlights throughout the history of art are also covered. – **Fall/Spring**

**MA 156 Principles of Mathematics – 3 Credit Hrs** – Problem solving and critical thinking skills are developed through a selection of unique mathematical content and topics. Previously learned skills in algebra and geometry are enhanced to develop a greater awareness of mathematics. (Prerequisite: MA 098 or appropriate score on Mathematics Placement exam) – **Fall**

**UL 100 Research Skills, Information and Technology – 2 Credit Hrs** – This course is an introduction to essential skills and concepts for locating, evaluating, and using information from a variety of print and electronic sources. Issues covered include classification and organization of information, electronic database techniques, and ethical issues in the information society. – **Fall/Spring**

**IS 113 Introduction to Microcomputer Applications - 3 Credit Hrs** – Students will learn basic computer concepts and applications in the Microsoft Windows environment via word processing, spreadsheet, database, and presentation graphics software. Students will explore Internet navigation, ethical concepts, and security. – **Online & EHS Dual Credit – Spring**
